

TWEED RIVER ENTRANCE AS AT 13 JANUARY 2017

WARNINGS: Extreme caution should be used when navigating this entrance.

Changes in bed and channel contours could occur rapidly due to waves and currents.

Entrance users should not rely on this information, as conditions may have changed since the date of this survey.

Seabed contours show average depths in metres below Tweed River Hydro Datum (approx ISLW), not clearance depths.

NOTES:

1. Survey information collected by Michel Group Services 13 January 2017
2. Survey drawing prepared by Hydrosphere Consulting 23 January 2017.
3. Surveys are undertaken for Tweed Sand Bypassing every three months to monitor entrance seabed levels.
